## The Covered Bridges and Cheese Ride ~99 miles~

No matter how you ride it, clockwise or counterclockwise, this is a great ride. Our most popular ride through the years has been the Covered Bridges. This route has just the right amount of interesting stops, exceptional scenery, and curvy roads.

Included in this ride is the longest covered bridge in Vermont, 280 feet long, spanning the West River which meanders along Route 30. The Grafton Cheese factory provides an idyllic stop to view the covered bridge as well as a place to see Vermont cheddar being made. Grafton Cheese has a tasting room where you can sample their wares, from freshly made block cheddar to their renowned 6-year-old cheddar.

This ride also includes Hogback Mountain with its famous 100 mile view, mentioned in most motorcycle books on New England. Just another one of those spots where you can get a great picture of you with your ride!

September 2013

We stayed for two nights with a group that arrived via motorcycle. Very motorcycle friendly. Warm friendly host who made everyone feel welcomed. She remembered one group member that had taken place. Rooms are clean and conversation that had taken place". Rooms are clean and cozy. Option for TV upon request, but I for one did not wish for it. Spent most of our time in town or by the fire place enjoying good conversation and our BYOB. Convenience store just down the road, restaurants all with in walking distance. Wonderful location, breakfast was hot and filling. That meal can last you all day till dinner! & all freshly made to order! In the evening you can sit by the fire place and enjoy the company of the other guests. I will certainly be back next year! Thank you again Carina for making us all feel like family, our home away from home.
